“USC provides critical information everyone should know”
Since 2005, universities nationwide have made Safety Awareness a priority. At the beginning of each school year, USC offers critical information every student should know in order to survive a natural disaster, robbery, hate crime, and/or sexual abuse. Come join us from 12pm – 1pm at Tommy Trojan for an interactive discussion with students on “Safety from a Student’s Perspective”. There will be giveaways and prizes!
